

PALLET COVERS

PROTECT YOUR GOODS IN TRANSIT

Protect your goods as they leave your premises by covering the entire pallet. A custom made strong robust pallet cover from PowerPlastics gives you peace of mind that your goods are better protected.

Polyethylene cover

Thermal cover

Canvas cover

BENEFITS

- Protection of goods from water, rain and other weather.
- Protection from mechanical damage such as forklifts as a pallet cover provides a robust protective barrier for your goods.
- Quick and easy to apply as pallet covers are made to size and specification.
- Goods arrive at your customer destination looking and feeling like a quality product.
- Able to brand the pallet covers for further identification in your customer warehouse.
- Barcoding and numbering is placed in a regular spot for tracking and identification.
- Pallet covers are re-usable.

FULL RANGE

- Thermal covers** – for temperature control
